

Make activity dice

Below, there is a cutout template for a cube. Print it onto card. Write a set of six activities on the cube's six sides **before** you cut it out. Here are some ideas to get you started.

Jump.
Skip.
Hop.
Run.
Crawl.
Walk.

Take turns with the dice as you walk through the park.

a yellow flower
a bumble bee
an ant
a bird
a tree with a hole in it
a bush with thorns

1. Write in the squares **before** you cut out the shape

2. Cut around the shape. Be careful; don't cut off the tabs

3. Make sharp folds along the lines. Can you see how it will make a cube?

4. Glue the tabs. Use lots of glue; it will take a while to dry.
